

Transaction Support Services

Today's challenges:

In today's evolving regulatory environment, corporate vehicle management has become an increasingly complex and risky area, requiring significant resources, distracting businesses from value creation.

We can assist businesses by **outsourcing the complete administration and monitoring** of specific investments & structures, providing peace of mind to businesses.

This is performed by **skilled and multidisciplinary local and international teams**, to the extent necessary, through one point of contact for the business.

This offering is advantageous to investments carried out by private equity/venture capital funds, joint venture operations, non-core businesses or to complex structures.

How can the Transaction Support Services team help?

Bespoke Solution: Tailored to each client's specific requirements and needs.

Holistic Approach: Monitoring closely all the counterparties and service providers, ensuring timely action is taken to meet the compliance obligations in any jurisdiction addressing any potential risks and issues as they arise.

Ad-hoc Support: Assistance from initiation to completion of a transaction, providing comments on the transaction documents from a tax, legal, accounting aspects and other perspectives.

Banking: Monitoring of all bank accounts together with preparation / execution of relevant payment instructions.

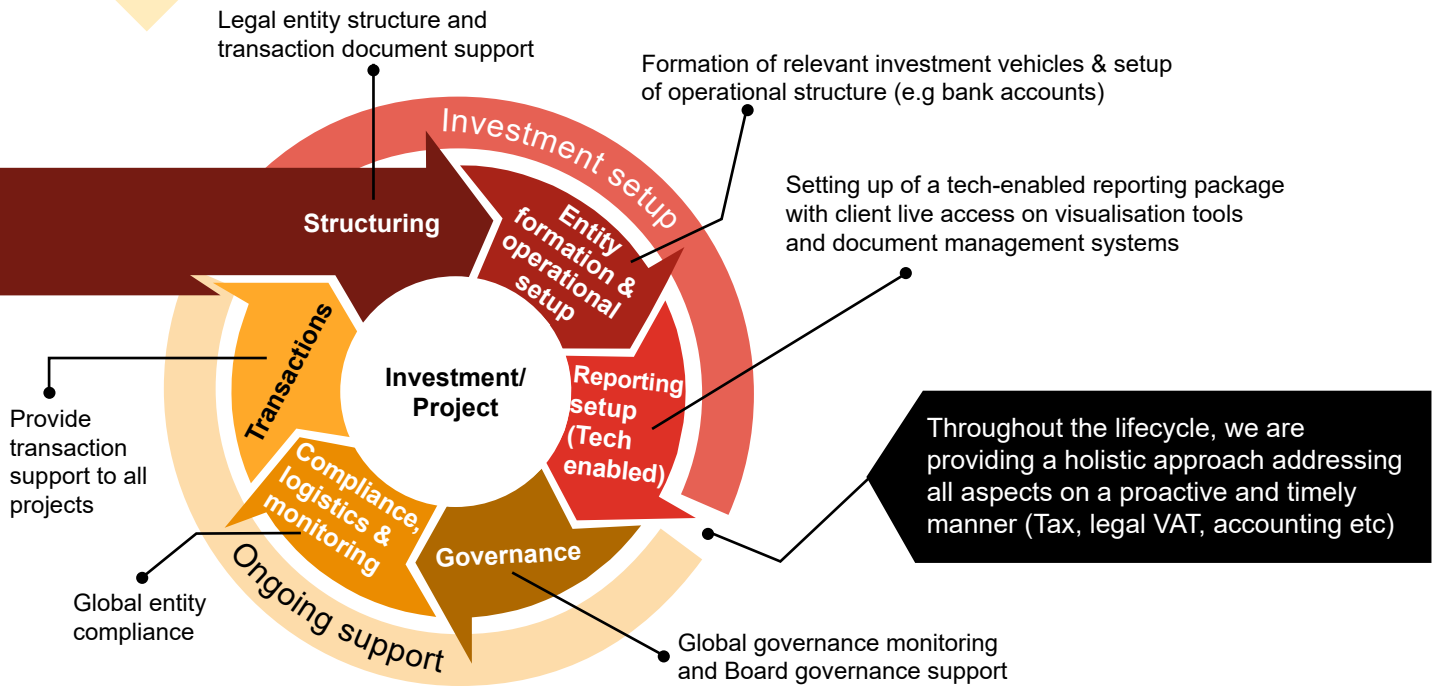

Financing: Assist with all information undertaking and financing obligations where the business acts as a borrower or a lender (including compliance certificates, waterfall calculations, financial covenant compliance, reporting obligations etc.)

Efficient Manner: Peace of mind from the monitoring of a centralised team and reduced costs and time efficiency by approaching holistically each arrangement.

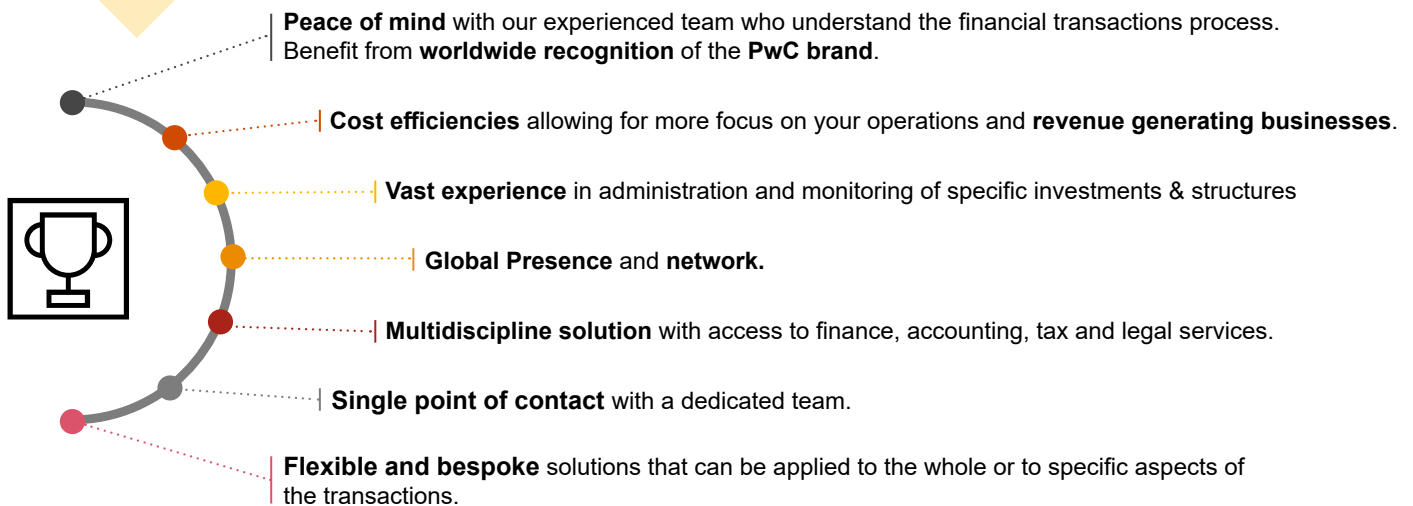

Through Transaction Support Services, businesses obtain access to:

- Professionals in all jurisdictions.
- Knowledge of all technical aspects (tax, legal, VAT, accounting etc).
- Available resources.
- Monitoring mechanism of the various service providers involved.
- Monitoring mechanism of the costs of each investment.

Supporting you through the whole project lifecycle
