

20th Annual Global CEO Survey

*Anniversary event and presentation of the
local survey findings*

For the past 20 years PwC has asked CEOs around the world about the trends that are shaping business and society.

This year almost 1,400 CEOs from 79 countries shared their views, which were presented at the World Economic Forum's Annual Meeting in Davos, Switzerland, on the powerful forces of change being wrought by technology and globalisation.

In this context, 89 CEOs from Cyprus participated in this year's survey, sharing their thoughts and concerns about the future of their businesses.
