

PwC Fund Services

Our response to today's challenges

The Asset Management industry presents a number of challenges, from **growing compliance requirements**, the complexities of having to operate a regulated structure and being able to navigate through the evolving technologies introduced and shift in investors' focus to new types of investments, such as green investments.

In an **increasingly complex business and regulatory ecosystem**, fund managers and fund promoters make their choice of set up based on a variety of considerations, including choice of jurisdiction based on distribution network, access to the Regulator, quality of professional services, cost of creating and maintaining the setup, and more.

The Cypriot Asset Management industry has been gaining momentum, with almost **EUR10bn Total Assets Under Management** in Q1 2021, a growth of 14% since Q4 2020. The sectors in which Cypriot Investment Funds and Fund Managers invest in include Energy and sustainable investments, Shipping, Real Estate Fintech etc. Cypriot structures enjoy cross-border fund distribution, with particular focus on Europe, Asia and the Middle East and EU-passporting eligibility for most fund structures.

At PwC, we have identified our clients' need for **industry focus** and have set up a **specialist Funds team**, the largest in Cyprus, which is able to offer not only **market-leading expertise** but also a **comprehensive solution** to our clients, enabling them to focus on what's important.

Fund Licensing & Advisory

Our team comprises seasoned professionals with expertise in advising clients on optimally structuring their operations and successfully obtaining their Fund or Fund Manager licenses. Our expert advisers can also provide post-licensing support with commercial and regulatory compliance matters.

Comprehensive Service Offering

Other solutions

As part of our comprehensive service offering, we have a breadth of professionals with expertise in the Funds industry offering services such as Regulatory, Tax, Legal and VAT advisory, internal and external audit, etc.

Core PwC Funds Team
