

Registered Alternative Investment Funds (RAIFs)

A revolutionary development is the introduction of RAIFs resulting to a drastically time efficient and more affordable way for establishing AIFs in Cyprus.

RAIFs do not require authorization by the Cyprus Securities and Exchange Commission (CySEC), being the competent authority supervising AIFs, in order to commence operations as long as they are externally managed by an Alternative Investment Fund Manager (AIFM) established in Cyprus or in another EU Member State.

Instead, the establishment of a RAIF will need to be notified to the CySEC and be included in a special register that shall be maintained to this end. After submission of the completed notification package, CySEC will proceed with the registration of the concerned RAIF in the said register.
