

Legal Services in Cyprus

Introduction

We are a full member firm of PwC the largest professional service organization in the world and we are part of the Tax and Legal Services Network, which has more than 3.000 lawyers in over 90 countries. We are primarily a business and private law practice which offers:

- specialist legal advice for businesses and individuals (especially in the fields of corporate law and estate and succession planning);
- on-going legal support; and
- legal support as part of a multidiscipline service offering to corporate and private clients.

We work alongside lawyers from the Network and experts from PwC and we provide a comprehensive service to our corporate and individual clients internationally. Our operational methods and practices provide assurance to our clients as to the consistency of the quality of the service that we provide worldwide.

Our objective

Our objective is to provide our clients with high quality solution oriented legal services that will meet their needs and requirements in today's demanding and constantly changing international business and economic environment. We always aim to achieve our objective by delivering timely, practical and commercial solutions to our clients. In this respect we work closely with our clients utilising our lawyers' and other colleagues in the PwC Network skills, knowledge and experience, which we constantly seek to enhance and develop.

Our Services in detail

We provide legal services in respect of the whole spectrum of corporate law, including advising, supporting and representing clients in:

- M & A transactions (including carrying out legal due diligence)
- Re-organizations and Restructuring (for international tax planning and other purposes)
- Setting up and regulating private companies
- Setting up joint ventures and other forms of businesses
- Finance and refinance transactions
- Winding up of corporate and other business structures
- Dispute Resolutions in highly specialised areas such as shareholders' disputes and minorities' rights

In terms of private clients we provide expertise in Succession and Estate Planning primarily through the use of trusts and wills.

In addition to our capability to offer general legal advice and support, we also provide legal services in other areas of major interest and concern to modern businesses and individuals such as:

- Tax Litigation
- Intellectual Property Law
- Employment Law
- Personal Data Protection Law
- Alternative Investment Funds
